Best door lock ever!!!!

★★★★★

11/21/2025
Bobdrhhcbrn

This is the best lock I've ever had on my home so far. The remote feature is very convenient. It's super nice to be able to unlock the door as I'm pulling in the driveway. I can only imagine how convenient that's gonna be this winter. have the door unlocked and being able to walk right in without having to mess with keys ...

Reliable Lock

★★★★★

Blanchmont

I've owned several of these locks at several houses including a rental property. They work so well I can rely on them to operate smoothly and thanks to information from the app the maintenance is easy. It's nice to be able to monitor and manage each and every lock from the app. They continually update and improve the ...

Very good - but needs one important enhancement

★★★★☆

5biller

I had a locksmith install the keypad lock. At the time I installed 4 new Duracell batteries. 4 months later I returned to this vacation property to find the keypad dead from low batteries- I was unable to open the door. Could the app be enhanced to 'Push low battery notifications'. Would be a lifesaver. Also 4 months seems short ...

Peace of mind

We have the Schlage Encode locks on 4 homes in our family. The app keeps us notified of the status of each lock. Using the automatic locking feature removes the "did I, didn't I lock the front door?" Even if the door needed to be locked it could be done remotely via the app. Would recommend this product.

Battery notification

Apr 22
Vetjb

Please add a low battery notification that can be pushed in a phones notification area. You have it for when a door is unlocked or unlocked. You can add it for the battery level. The battery is not showing as low correctly in my history log. And then we're getting locked out.

Good but...

The latest version is a nice improvement that makes better use of the screen size. The annoying part is the rotating Schlage advertisement at the top above the lock sections. As a customer, I find this very annoying and distracting. It would be much better if this was moved to the bottom of the screen below the locks.
